Organizers, participants and guests of the 6th International Rotary Children's Musical Competition

Dear Friends!

On behalf of the Moscow government and from me personally I warmly greet the organizers, participants and guests of the 6th International Rotary Children's Musical Competition!

Over the course of its development the competition has become a bright part of the children's musical movement in Moscow, Russia and the entire world, promoting aesthetic training and wide cultural dialog for the next generation of musical talent from various countries. The competition is making a sizable and important contribution by enriching the musical universe with new constellations of young talents. Many of its laureates are successfully appearing in prestigious concert halls around the world, fittingly continuing the traditions of Russian and international musical classics.

The 6th International Rotary Children's Musical Competition adds to the rich palette of cultural life in springtime Moscow, exposing the world to talented new performers and giving the capital's demanding public unforgettable impressions of our planet's young musicians.

I wish you, dear friends – health, happiness and great creative achievements in the service of fine art!
